

NCR RealPOS™ XR5

For NCR Counterpoint

The NCR RealPOS™ XR5 is an energy efficient, fan-less, multi-touch, point-of-sale (POS) terminal packaged in our stylish X-Series all-in-one design

For more information visit ncr.com or contact us at retail@ncr.com

Make a lasting impression

The in-store customer experience has become a key focus for retailers. Each point in a shopper's journey throughout your store is important in building loyalty for your retail brand. The stylish all-in-one RealPOS™ XR5 delivers the performance you need in a versatile design that blends seamlessly into any retail environment.

Technology you can bank on

The NCR RealPOS™ XR5 is powered by the latest Quad core Intel® Celeron® processor-based system-on-chip (SoC) technology to give you high energy efficiency, lower operating temperature, and uncompromised performance. This means lower power cost and higher reliability. The associate display provides support to boost associate productivity and lets them interact in a way that is familiar to them. Now that's like money in the bank...

Customize the right solution for your stores

You can customize your XR5 solution with integrated options including a variety of customer facing displays, an encrypted magnetic stripe reader (MSR). The XR5's sleek design offers you flexible installation options to meet the needs of your different store formats.

Peace of mind

Data security is a top five priority for most retail CIOs. Safeguarding customer data is of critical importance to your business, and we understand that. The NCR RealPOS™ XR5 includes several key security features, such as an encrypted MSR and an Advanced Encryption Standard (AES) solid state drive to protect shopper data.

Built to last

Like our NCR RealPOS™ XR7, the XR5 was designed to offer the sophisticated elegance of the latest consumer technology, but with the robustness and reliability of industrial grade, purpose built POS technology—giving you the best of both worlds. With its rugged die-cast aluminum chassis, long life LED display, projected capacitive touchscreen, fan-less design, solid state drive, and long life components, the RealPOS™ XR5 will provide years of reliable operation.

Technical specifications

Processor

- Intel® Celeron® Quad Core

Memory

- 8GB DDR3 1600L

Storage options

- 120GB Solid State Drive (SSD)

Connectivity:

- Twelve USB ports
 - Three 12v Powered USB 2.0
 - One 24v Powered USB 2.0
 - Two PC USB 3.0
 - Six reserved USB ports for integrated devices
- One RJ50 powered serial port with optional serial expansion
- Cash drawer port (12 or 24 volt with dual drawer support)
- 10/100/1000MB (Gigabit) Ethernet LAN
- 2 digital display ports

Associate interface

- 15" projected capacitive touchscreen (4:3 aspect ratio, 1024x768 resolution)
- Support for 10-point multi-touch
- High bright LED-backlit display
- 0 to 110 degree tilt capability for ease of use and installation
